Our Values
Growth

We pride ourselves on shaping your position around your successes and passions, allowing you to continually evolve and grow both personally and professionally.

Collaboration

We are firm believers that the whole is greater than the sum of its parts. No single team at BMG360 can successfully function without collaboration. By working in partnership across multiple departments, our team members get the opportunity to play to their strengths and try their hand at a number of job responsibilities.

Inclusivity

Our free cold brew and generous bonuses are great but our employee's feeling comfortable, happy, and safe in their jobs is better. A strong corporate culture is useless without inclusivity and we prioritize our employees feeling valued and respected, regardless of their age, gender, sexual orientation, race, or religion.

Transparency

Plants can't grow if they're kept in the dark, and neither can people.

We carve out time every week to keep all of our employees in the loop; updating them on company financials, how we're performing against bonus goals, and how we're responding to challenges or successes we encounter.

Excellence

We don't settle for average. No shortcuts. In all that we do, big or small, we commit to a high standard of excellence. For our co-workers and clients, we look to not only meet expectations but exceed them with the quality of our work.

Balance

A strong work ethic is an integral part of our culture, but we also know it's important to take intentional time to recharge. We prioritize our time for the success of our employees, clients, and company. A balanced approach is how we create a healthy work environment and achieve the best results.
